castlevania lords of shadow 2 armored dracula costume

A outfit that seems to share traits with Vlad the Impaler and other versions of Dracula. This outfit can be used along with the Dark Dracula outfit to create an outfit that looks the most like Classic Castlevania Dracula.. Killer 'stache, bro.. This is a pretty big improvement over the original outfit. It's more form fitting and panelled, and the other one is exaggerated and bulky. Both good. I switch back and forth depending on my mood.. So aMuch Better than default skin, bought this within 1 MINUTE of starting the story. I wish I was joking. This Costume is just perfect - it has a strong resemblance to the historical Vlad Tepes III. I prefer to play with the Armored Dracula than the original.
